Our Group of Companies

Geofranc Private Limited is specialized in providing liaising services for Engineering Consultants and Companies, Turnkey Contractors, Owners and Promoters. The company coordinates the supply of high capital equipment through consultants and directly to end users of various industries.

In addition to off the shelf trading operations of Pumps, Valves, Instrumentation Equipment, Fire and Safety Equipment, Security and Surveillance Systems and Heavy Duty Cleaning products, Geofranc Enterprises provides maintenance service of Fire Fighting Equipment and Pumps.

Geofranc Engineering provides detailed engineering services for modification and refurbishment of Fertilizers, Oil & Gas, and Process Units. The company also caters to project management and procurement service requirements under the supervision of personnel with more than 30 years of Industrial expertise.

Geofranc Solutions Private Limited undertakes execution of small scale turnkey contracts and provides solutions for implementing Fire and Safety Systems, Security and Surveillance Systems, Sewage Treatment Plants, Waste Management Systems, Effluent Treatment Plants, and Complete Water Management Systems

Geofranc Oil and Gas globally coordinates trade of energy resources in all forms, between prospective buyers and suppliers.
